

NEPTUN MILK BAR

Description

Very interesting place known as so called milk-bar. Climate of a milk bar will be found in the ground floor, but the first floor decor is more restaurant.

You can replace a lot of advantages of this property: location (Long Street - heart of the historic Gdansk), attractive prices and instant service. This bar is frequently visited by foreigners for whom tasting Polish dishes in this special organized place is a huge tourist attraction. Remark! Our guiding experience shows that the previously unannounced entry the large groupm(for example 40 people) somehow "clog" the great capacity of the bar. Therefore it's better in your free time to be here with smaller group.

Menu

You select meals yourself, After their receipt you have to pay in cash point. Therefore self-service is necessary - I think this element of the bar's functioning is so special for foreigners. Excellent soup you can eat for one euro only.. Budget of rich two-course dinner is the amount of just a few euros. And you now know why the operation of this milk bar clearly irritates many of the local restaurateurs. We highly recommend the 'Gypsy flan' – very nutritious food though not all culinary tastes may correspond.

Example prices:

Vegetable soup – 0,60 Eur

Barley soup – 0,60 Eur

Pea soup – 0,60 Eur
