

Kashubian party

In this proposal we refer to the richness of the Kashubian folk - local traditions may be a surprise even for Polish tourists and what to speak of foreign guests. It is worth to describe closer Centre for Education and Regional Promotion in Szymbark. This is a kind of educational and recreational complex where in a very interesting way Kashubian threads are combined with sometimes very difficult topics of Polish history. Perhaps the most recognizable building is symbolic in pronunciation "Upside-down House". Much has been written about the longest plank of the world - indeed the history of this exhibit is very interesting.

Program of event:

- Arrival to Szymbark. Welcome by Kashubian band, snack powdered tobacco and bread with lard and pickles;
- Show the baking of bread;
- Guided tours of the educational complex; The tour route include e.g. the longest plank of the world, Museum of carpentry, Siberian Home, replica of the Soviet gulag, "Upside-down House";
- Feast with Kashubian band. During the feast tasting of local food and many additional attractions: demonstration of powdered tobacco production, 'burczybas' and the "devil fiddle" musical instruments demonstration, powdered tobacco snack and many others.
